February Vacation Program
3D Print Your Name Keychain

For February vacation week 2022, we're offering kids ages 5 and above with a virtual Zoom 3D Printing Exploration Program. The topic is 3D Print Your Name Keychain. Our virtual programs are fun, interactive, and eye-opening.

Available on Feb 22, 2022 (10:00am-11:00am) and Feb 25th (10:00am-11:00pm) (K-10)

* * Toysinbox associates will first briefly introduce you to 3D printing. * *

* * Then, they will guide you to create a 3D model of your name keychain.

* *

* * Once students finish designing their name keychains, we will start to 3D print them in two colors. * *

* * One color for the letters and a different color for the base. * *

* * We will live-stream the 3D printing process for our students to watch, and MORE... * *

* * Your keychain will be shipped to you via USPS after the workshop. * *

* * Each workshop is about 1 hour long and is great for ages 5 and up. * *

* * $25/person, keychain shipping, handling charges, and one metal ring are all included. * *

Hello Munchkins Update

Now, we have 3D printable keychain models for 3000 names. You can download the files to print at your schools, libraries or at home! The printing time is less than 30 mins which is great for a 3D printing program or a 3D printing party, and you may even want to start a small keychain business.

3D Printing Meets Embroidery:

*March 2022 *

Last year, we started our 5-pattern package with 3D Printing Meets Embroidery, and we shared each pattern in STL format for free on our Facebook page. For 2022, we are going to do the same! The first pattern will be shared on March 11th, and the design is one plant and one pot. Follow us on Facebook to be in the know. Here is our Facebook page at https://www.facebook.com/Toysinbox3DPrinting Are you ready for the fun? ☺

Heads Up!
