ZERO DOLLARS

HELLO, I'M TOYSINBOX TIMES!

I am an Austin-originated newspaper sold at Toysinbox 3D Printing Store, Toysinbox.com and Toysinbox events at zero dollars. I absolutely adore toys, crafts, books, fun activities, and KIDS ENTREPRENEURSHIP!

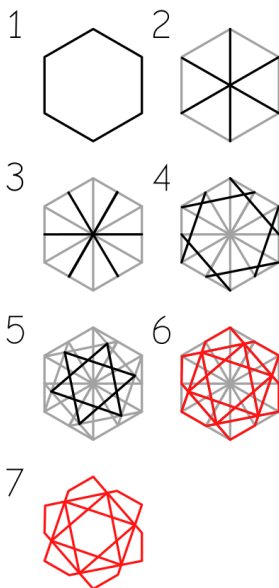

My passion is broadcasting everything about Toysinbox and kids business adventures. Each month, I will report exciting news at Toysinbox, interesting things to do for kids, and enlightening kids business adventures. So be sure to read the fabulous articles in this issue.

FUN THINGS TO DO

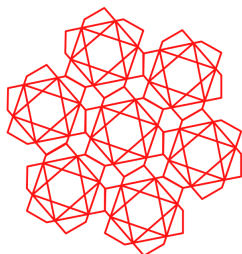

By J.Y.

Geometric Pattern

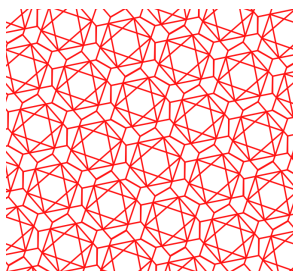

Have you ever saw complicated patterns of shapes that seem to go on forever on things like gift wrapping paper? Maybe an elaborate design of polygons in a piece of art? Well you can easily make these same patterns yourself! It's quite simple really. You start with a base shape such as a square or hexagon that fit nicely with each other. Draw a bunch of construction lines before creating a final unit using the lines. Then you can repeat this unit over and over to make a complex pattern! See steps 1 - 7 for a visual representation.

Here, you can see we pieced seven of our units together to make a cool hexagon.

Here, the units can repeat on forever... and ever... and ever!

3D Printing Summer Fun at Toysinbox

Our summer in-store education program just finished. We had returning intermediate and advanced students to attend our in-store 2-weeks-long summer camps. Each day, we finished several challenging projects. We also have new students to attend our workshops. Take a peak at what our students finished! We randomly selected 3 pictures for your review pleasure.

Thanks for Reading and See You
Next Month!
