### Get 3D Printing Activities Kit for Twins & Teens Summer 2018

Our first 3D printing **book kit** was released on April 6th, 2018. Included with this book are 5 projects that teach 3D modeling. We will 3D print your tween's or teen's 3D models once they finish using the book. Your tween or teen will need to email us their 3D models. We will check their work, 3D print the 3D models, and ship the 3D prints back via USPS. It is a great gift for anyone who **wants to learn 3D modeling for 3D printing but does not have a 3D printer or does not have the time to maintain a 3D printer**. Take a look inside our new book. The projects are arranged in order of difficulty. More and more middle schools start to include 3D modeling and 3D printing in their digital literacy class. So why not get your tween or teen this book kit to make them more prepared and also get rid of **Summer Boredom**? Visit [http://http://www.toysinbox3dprinting.com/3d\\_printing\\_books.html](http://http://www.toysinbox3dprinting.com/3d_printing_books.html) for purchasing information.
