ZERO DOLLARS

HELLO, I'M TOYSINBOX TIMES!

I am an Austin-originated kids newspaper sold at Toysinbox 3D Printing Store, Toysinbox.com and Toysinbox events at zero dollars. I absolutely adore toys, crafts, books, fun activities, and KIDS ENTREPRENEURSHIP!

My passion is broadcasting everything about Toysinbox and kids business adventures. Each month, I will report exciting news at Toysinbox, interesting things to do for kids, and enlightening kids business adventures. So be sure to read the fabulous articles in this issue.

FUN THINGS TO DO (11)

By J.Y.

Singing Wine glasses

Here is a fun experiment to try at home. What is great about this project is that it only requires a wine glass and water. First, fill the wine glass halfway with water. Next, dip your index finger into the water. Make sure your finger is nice and wet. Starting firmly pressing on the wine glass rim. Start to move your finger around the rim while firmly pressing it. You may want to use your other hand to stabilize the glass. It may topple over. When your finger is making squeaks, release some pressure on your finger. It may take a while, but your wineglass can now sing! Pass this fun experiment along to others. Try to make different notes by adding or subtracting water from the glass.

GREAT NEWS

By TOYSINBOX PEOPLE.

Science Activities

On March 7th, we were invited to participate in the Boston city-wide science fair hosted by Northeastern University (see picture 1). On March 28th, we were invited to participate in the Wellesley STEM Expo (see picture 2). In both events, our booths were very popular and attracted people young and old. We were thrilled to share what we know about 3D printing. The hands-on activities really added extra fun. On April 18th, Toysinbox will be in the Carnival & Robot Zoo of Cambridge Science Festival. If you are nearby, please drop by our booth. Surely it will be a great fun.

Community Support Activities

On Feb 28th and March 1st, Toysinbox 3D Printing was invited to Wellesley Free Library Mini Golf fundraising 2-day event (see picture 3). Toysinbox also brought 3D printing to elementary-school enrichment programs, which helped the schools' fundraiser (see picture 4). In addition, Toysinbox 3D Printing has donated workshop gift certificates and 3D photo booth gift certificates to high schools and elementary schools to support their schools' spring auction.
