EVENT REVIEW By TOYSINBOX PEOPLE

3D Printing at the Big E

Toysinbox was in the Big E, the largest fair in the Northeast and the 7th largest fair in the nation, celebrating the Big E's centennial with 3D printing fun for 17 days (September 16th to October 2nd) in West Springfield, MA.

Despite the not-amicable weather at the beginning and at the end of the Big E, the reported fair attendance in 2016 is 1,418,042! Surely we had many visitors too.

Right before the opening of the Big E, Toysinbox got a last-minute notice from the fair that there was one outdoor booth space available. Being at the Big E centennial was a historic moment and we wanted to be part of it. Therefore, we immediately took this opportunity without considering that we did not have enough preparation time.

With a can-do attitude, a hard-working spirit, and several visits to the Home Depot, we built the wood frameworks and a big center stand from scratch. All of the designs were aimed to provide the maximum 3D printing fun. Many visitors thought our booth was one of the most interesting ones and revisited us afterwards. Please see the picture for the detail.
